

	Excellent	Very Good	Satisfactory	Inadequate	Poor
Context Clear and appropriately detailed summary of Lamarckian theory, and the designs of the <i>Agar et al.</i> and <i>McDougall</i> experiments are well-explained.					
Graphics Graph(s) clearly and appropriately showed the data to enable relevant comparisons. These are accompanied by succinct comments summarising the information available in the graphics.					
Reasoning Comparison of the results from the Agar et al. (as presented) and McDougall studies, in the context of Lamarckian theory, which demonstrates sound reasoning.					
Presentation Use of language is clear and concise, ideas are communicated well, the slides are well-presented and free of unnecessary statistical graphics/output.
